Scoring table:

93435 Total number of hits satisfying chosen parameters:

Minimum DB seq length: 0 Maximum DB seq length: 2000000000

Post-processing: Minimum Match 0% Maximum Match 100% Listing first 45 summaries

SwissProt\_39:\* Database :

Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.

Motor_protein; MECHANOCHEMICAL (MOTOR) (BY SIMILARITY).
KINESIN (IT HYDROLYZES ATP AND BINDS MICROTUBULE), A CENTRAL ALPHA-HELICAL COILED COIL DOMAIN THAT MEDIATES THE HEAVY CHAIN DIMERIZATION, AND A SMALL GLOBULER C-TERMINAL DOMAIN WHICH INTERACTS WITH OTHER PROTEINS (SUCH AS THE KINESIN LIGHT CHAINS), VESICLES AND MEMBRANOUS ORGANELLES.

MISCELLANGOUS: WUTANT FLIES DISPLAY IMPAIRED ACTION POTENTIAL PROPAGATION AND NEUROPREAST IMPAIRED ACTION POTENTIAL DROCHOATIONS, BUT ARE STILL CAPABLE OF TRANSPORTING CERTAIN SINGERRANDES, INCLUDING SYNAPTIC VESICLES, TO THE NERVE TERMINAL. SIMILARITY: BELONGS TO THE KINESIN-LIKE PROTEIN FAMILY. KINESIN

Detentially encodes two homologous zinc-finger proteins.";
Gene 105:185-195(1991).

- FUNCTION: BINDS TO POLYTENE CHROMOSOMES. SEEMS TO INTERACT WITH PROTEINS ALREADY BOUND TO PROMOTER COMPLEXES AND MAY BE A NEGATIVE REGULATING THE EXPRESSION OF SEGMENTATION GENES. PLAYS A ROLE IN REGULATING THE EXPRESSION OF OTHER PAIR-RULE GENES SICH AS EVE, FTZ, AND H.

- SUBCELLULAR LOCATION: NUCLEAR.
- SUBCELLULAR LOCATION: NUCLEAR.
- ITISSUE SPECIFICITY: SALIVARY GLANDS.
- SIMILARITY: TO MOUSE EARLY DEVELOMENT REGULATOR PROTEIN RAE-28.
- SIMILARITY: TO MOUSE EARLY DEVELOMENT REGULATOR PROTEIN RAE-28.
- SIMILARITY: TO MOUSE EARLY DEVELOMENT REGULATOR PROTEIN RAE-28.
- CHILL SIMILARITY: TO MOUSE EARLY DEVELOMENT REGULATOR PROTEIN RAE-28.
   Decamillis M., Cheng N.S., Pierre D., Brock H.W.; "The polyhomeotic gene of Drosophila encodes a chromatin protein that shares polytene chromosome-binding sites with Polycomb.";
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       Gaps
